View our directory of board-certified dermatologists at upgdocs.org/dermatology
Wayne State University Physician Group Dermatology Services offers a full range of adult and pediatric dermatology services.

> Specialty Dermatology Services
for Complex Conditions
Wayne State University Physician Group board-certified dermatologists treat patients who have complex dermatology problems or conditions requiring highly specialized treatment.

WSUPG doctors provide the following specialty services and treatments for disorders of the skin:
- Phototherapy-UV light therapy for psoriasis and other disorders
- Biologic therapies for psoriasis
- Patch testing
- Fungal testing
- Mohs micrographic surgery for skin cancer

> General Dermatology Services
for General Care and Treatment
Certain skin conditions require expert medical treatment to successfully treat and heal. The board-certified dermatologists at Wayne State University Physician Group treat all ages and all skin diseases, from acne to skin cancer.

WSUPG doctors treat these general diseases and disorders:
- Acne (adult and pediatric)
- Actinic keratoses
- Aging skin
- Alopecia areata/hair loss
- Basal cell carcinoma
- Eczema/atopic dermatitis
- Genital warts
- Herpes simplex
- Melasma
- Molluscum contagiosum
- Psoriasis
- Rosacea
- Seborrheic dermatitis
- Vitiligo
- Warts

> Pediatric Dermatology
for Common Pediatric Skin Conditions
Even our littlest patients need specialty skin care. Our doctors specialize in common conditions affecting infants, children and adolescents.

WSUPG doctors provide care for the following pediatric conditions:
- Acne
- Rash
- Lice
- Eczema
- Skin infections
- Psoriasis
- Warts

WSUPG is one of the largest nonprofit multi-specialty physician practice groups in southeast Michigan, with more than 2,000 affiliated physicians providing primary and specialty care. Each day, our doctors diagnose and treat some of the most complex medical cases in the state.

> Cosmetic Dermatology
for a More Youthful Look
Over time, our skin shows the natural signs of aging, wrinkles and sun damage. With the help of lights, lasers, injections and fillers, you can reverse those damaging effects and let your youthful beauty shine.

Wayne State University Physician Group Dermatology Services offers safe and effective cosmetic dermatology procedures to help patients reduce the appearance of aging and correct undesired skin conditions.

WSUPG doctors specialize in the latest aesthetic procedures, including:
- BOTOX® Cosmetic
  Treatment with RADIESS® wrinkle filler can bring back your own natural collagen and restore facial volume, with results that may last a year or more in many patients. RADIESS® wrinkle filler is used to treat smile lines, also known as marionette lines. It restores facial volume to give you natural, beautiful results that last. Results may vary.
- RADIESSE®
- JUVÉDERM®
- Fraxel
  Fraxel treatments use safe, fractional laser technology to treat minor to severe skin damage, such as age or sun spots, wrinkles and other signs of aging. Results may vary.

Additional cosmetic procedures include:
- Laser hair removal
- Laser vein removal
- Sclerotherapy for leg veins
- Chemical peels
- Removal of cosmetically unwanted moles

Wayne State University Physician Group Dermatology Services offers the latest aesthetic procedures, including:
- BOTOX® Cosmetic
- JUVÉDERM®
- Fraxel
- RADIESSE®
- RADIESSE® Wrinkle filler

**Cosmetic Dermatology** for a More Youthful Look

Over time, our skin shows the natural signs of aging, wrinkles and sun damage. With the help of lights, lasers, injections and fillers, you can reverse those damaging effects and let your youthful beauty shine.

Wayne State University Physician Group Dermatology Services offers safe and effective cosmetic dermatology procedures to help patients reduce the appearance of aging and correct undesired skin conditions.

WSUPG doctors specialize in the latest aesthetic procedures, including:
- **BOTOX® Cosmetic**
  - The beauty of a BOTOX® Cosmetic treatment is that it’s a simple, 10-minute, non-surgical process. A few tiny injections, and within days there can be a noticeable improvement in the moderate to severe brown lines between the brows that can last up to four months. Results may vary.
- **RADIESSE®**
  - Treatment with RADIESSE® wrinkle filler can bring back your own natural collagen and restore facial volume, with results that may last a year or more in many patients. RADIESSE® wrinkle filler is used to treat smile lines, also known as marionette lines. It restores facial volume to give you natural, beautiful results that last. Results may vary.
